In Read What And Shang No Leaf Principal Control of the Committee of Learning that is now really making a Kyllu Ako (Community of Learning) that is now really making a Kyllu Ako (Community of Learning) that is now really making a difference to the learning, achievement and wellbeing of Inglewood Community of Learning that is now both as well and the work has been between them all. They now have effective professional learning in place which is available to all of the local schools and ECEs. There are also specific roles in place which are designed to bring the community cogether and work towards the shared vision. The Te Kifful Ako o Kiffung Moa is regularly used as an example of good practice for her Kifful Ako of regional and national level. They are very proud of what they have exhered so far and are screted by the prospects for further collaboration this year and into the feature.

Together Kähul Ako partners share a common goal, to provide the best possible learning pathways and outcomes for the young people within the wider finglewood community. To achieve this, they are focused on four main achievement goals: 1 - Raining Achievement through Shared Pedagogy (ways of teaching and elarning). Developing a strategies of the strateg

Kāhui Ako has access to high quality professional learning provided leading experts from across New Zealand. The members of the team bri perspectives from their own centres but when they meet they always has perspectives from their own centers out when they were the the needs of all the Inglewood young people at the heart of discussions and planning. Together, the group is strong, supportive and progressive. Kahul Ako also consists of the topestry of under

rdinators, within school teachers, across

The \$8 million dollar project to improve Inglewood's drinking water is back in full swing following the Covid-19 lockdown using local contractors Downer. The next phase of the three-year upgrade of Inglewood's water network is about to get under way with the installation tow modern flow meters at each of the town's two reservoirs at the Inglewood Water Treatment Plant. These will replace the existing aged single flow meter at these

reservoirs at the Inglewood Videar Frestment Plant. These will replace the existing, aged single flow meter at these tase and help better manage the cown's water supply.

We have a supply of the plant of the plant

networks. This phase will take place during the second half of July and there is the chance it might cause short-term nstances of discoloured water. Everything possible will be done to minimise this distriction and we applied in

Sprucing up

is entering its next phase.

during the second half of July

Please keep bottled water handy.

Garden Clues with Sue (Sue Marsh)

has begun....well sort of!

The best time to plant garlic and shallots, is now here, which are

As new - Purchased for \$3400 The best time to plant guifc and shallots, is now here, which are best planted when the soil is cool, and around the shorster of the soil is cool, and around the shorster of the soil is cool, and around the shorster of the object of the year. Prepare the soil by digging it over to a depth of about 20m, and harvest on the longest day. You can also plant Bok chot, cabbage, kale, lettuce, mesclun, onion, peas, radsh, roceanray, and thy consenury, and thy consenury, and thy consenury, and they can be consenury and they can be consenured to the consenury and they can be consenured to the consenue to the consenured to the consenue to the cons

In the flower garden, plant cylcamens, roses, forget-me-nots – annual bedding types, calendula, polyanthus, Rowering kale, poppy, primula, viola, pansy, snapdragon, sweek William, allysum if you can get them. The nurseries are still trying to catch up after Lockdown. Apply Tui Bulh Food to existing bulb plantings, while a nice side dressing of fertiliser to ports and planters. A side dressing of

of tertuiser to pots and pianters. A side dressing id-dried blood to polyanthus and primula helps prolor the flowering periods, particularly if heavy rains lead away valuable soil nutrients. Don't forget to deadhea or pinch out old flowers of snapdragons, stocks, pol-and pansies to encourage a new flush of flowers.

Many of you started your winter pruning last week riany or you started your writter pruning last week in the nice weather, but July or even August is not too late to prune, as we probably will get some very cold and frosst days in July. Just remember, do it on a clear sunny day, and follow up with a spray, to keep those bugs at basy Happy gardening.

Inglewood Family History Group - Thanks TET and TSB (Mary Bookman) Now we have reached Level One, on Monday mornings, in the back room of the Inglewood Library, you will find the Inglewood Library History Group, and their large collection of local history records. Recently, thanks to the generously of TET, we have been able to add a beautiful set of metal drawers to house our maps, as well as a new

ktop computer. Even more recently we have added a new laptop and a wifi scanner/printer, thanks to TSB Community Trust. We thank them both most sincerely. We also thank the District Council for sincerely. Yee also trains the District Council for providing us with access to their internet, after we had problems with the library internet link. So now we have access not only to our own records, but free access to Ancestry Library and Find My Past, the huge international providers of family history data, not

mention the Puke Ariki Heritage collection. We are paired with the Stratford Family Histor Group, so members have free access to each other's records. We welcome new members and enquiring visitors, so do drop in and have a chat! Your interests may be local, national or international; we can hel you start your fascinating journey. PS We are looking for a good photo of Nurse Morgan's Maternit Hospital, known as "Koromiko", which stood on the corner of Miro and Rata Streets before the present house. Please contact Mary Boekman at 7567644, a
